COUNCIL MEETING OCTOBER 25,1976

Members present Mayor Watts, Councillors Blake ,Hibbs, Hanrahan and McLean.
Councillor McLean moved that the minuits of the previous meeting be adopted as read. Seconed by Councillor Hibbs.

There was a desuussion on the roads on the south side. Every year there is a problem of snow clearing. Highways will only do the comunity roads after they have finished there own work. At times there is several days before these roads can be opened.Council is sending a delegation to St. John's in November and at that time the question of snow clearing will be taken up with the Department of Transportation and Communications. The question of who pays for this will also be descussed in light of the situation in Hamilton Hights. In the meantime N L.S.D. would be asked if thier tractor would do snow clearing.

The Royal Bank of Canada is providing banking serviceto the community and requested the use of the Town Hall. They also want a phone jack installed. Council would contact Newfoundland Telephone to get this done.

Federal M.P. Bill Rompky will be in town on November 6, and would like to meet with Council and also with any interested persons. It was thought that Saturday would be a poor day to get many people out, however Council would make an effort anyway.

Subject to the LIP project being approved for work on the two rinks it was aggreed that E. McLean would be asked to install the lights on the South Side Rink.

A copy of a letter to the Minister of Transportation and Communications James Morgan from M.H.A. Joe Goudie was read, refering to the public meeting held reguarding the proposed Bridge. Also it suggested that another meeting take place when more details of the location and design is known.

There was a serious descussion on sending some one to St. John"s to hash out some of Councils problems. It was agreed to definately send two or three on november 21 or 28. Council agreed that who ever went the Mayor should be one of them. Mayor Watts and Councillors McLean and Hanrahan would go. M.H.A. Joe Goudie would be contacted to set up the meetings with the verious departments.
